

# Solving Property Emergencies With The EVO App

Download the EVO Resident app

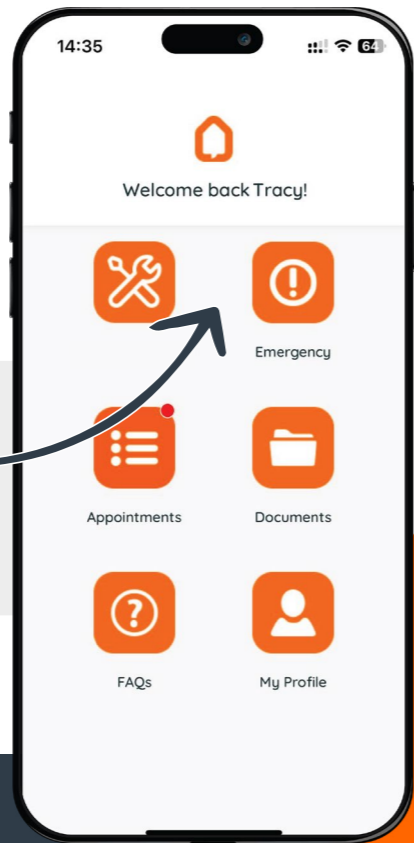

# Emergency Reporting

## Reporting a Property Emergency on The EVO App

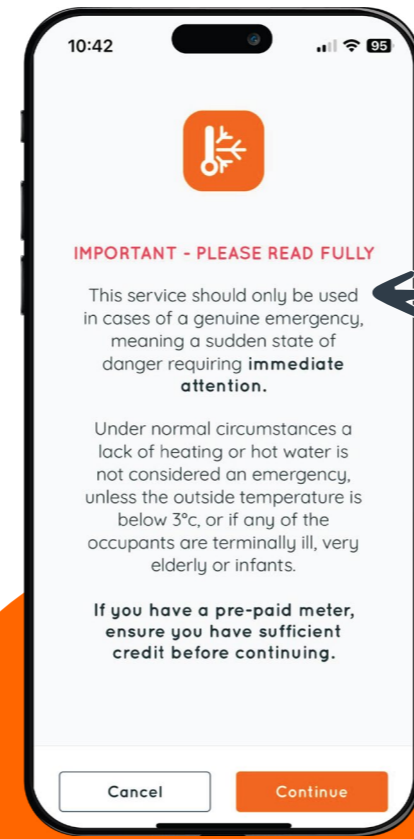

1

On the app home screen, click 'Emergency'.

2

Read the notice and click continue to confirm your issue is an emergency.

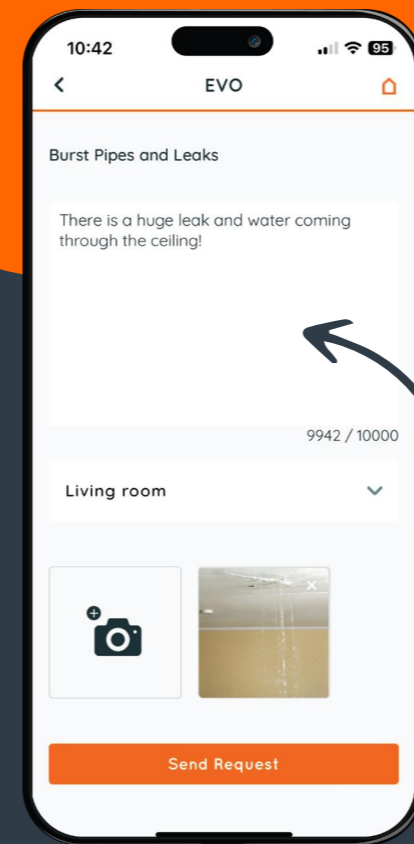

3

Select the appropriate category.

4

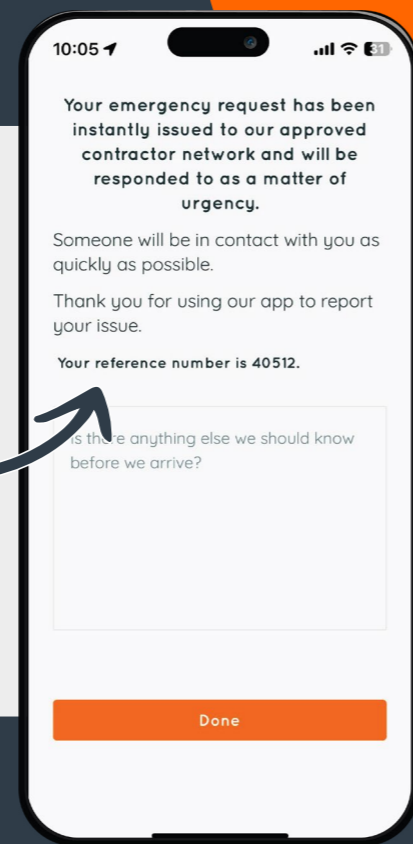

Provide as many details about the issue as possible, and include a photo.

5

Once you click 'send request,' your job will be logged, automatically approved, and EVO's emergency response team will attend as soon as possible.

While waiting we may also arrange a video triage call to see if we can solve the issue remotely.

For tenants not able to use the app, call 020 8691 9293 to report your emergency
